PROFILE

Coming from security and retail background, I have developed attention to details, problem-solving skills and customer service. I have accomplished a lot in these past few months and managed to learn new technologies and have projects to present. Now, I am looking for new challenges to further develop my skills and obtain new one.

My projects are available on my GitHub and I encourage you to visit my portfolio (https://romangrubic.github.io/Roman-Grubic-portfolio/).
